I am fresher looking for an internship for polishing my skills.

I have a key skill in HTML, CSS, BOOTSTRAP AND JAVASCRIPT.

## WHAT SOULD I DO

### Fresher Developer:

I am new developer looking for a company for team playing and participating in front-end projects.

### Quick Learner

I am a quick learner in web development because of great interest in web development.

## SKILLS

HTML

CSS

JavaScript

Bootstrap

## ABOUT ME

I am a self-made front-end developer and a beginner in web development.

I have learned HTML, CSS, Bootstrap and JavaScript. I am learning for more than half year and practicing daily. I want an internship for further polishing my skills and for permanent job in future.

I have made several templates and demo websites of real-life work available on GitHub for showing my little bit skills.
